“The mission of the Faculty of Engineering Technology is to provide lifelong learning opportunities in Engineering and Technology for all to meet industrial and social needs through open and distance learning, and support research & scholarship by efficient & sustainable use of resources.”

Preface

The Faculty of Engineering Technology has revised the curricula of all its Study Programmes to comply with the Sri Lanka Qualification Framework (SLQF) by incorporating extensive updates to the course syllabi. The Revised Curricula (RC) is now fully implemented.

This Guide provides information for all the students registered up to the academic year 2019/20. This Guide contains the courses that are offered in the academic year 2022/23.

Those students who intend to fulfil the award requirements (Higher Diploma/Degree) under the Interim Curricula (IC) of different Study Programmes should complete their award requirements at the end of the academic year 2022/23. The course lists in this Guide are based on these IC requirements (compulsory/elective). The original (IC) courses along with their relevant alternative Revised Curricula (RC) course(s) are shown in the tables with the prerequisites.

Compulsory and elective courses in respect of different specialisations of study programmes under the Revised Curricula (RC) are not presented in this Guide. Therefore, those students aspiring to receive awards under the Revised Curricula must refer to the Student Guidebook 2022/2023, which is available on the faculty website.

Time schedule for student registration

The Faculty of Engineering Technology has planned to conduct Re-registration, Add/Drop and withdrawal from courses during the following dates:

- **Re-registration (BTech, BIS & ACAT): 3, 4,8*,9, 10,11,12 May 2023 (all centres) (*only at CRC)**
- **Re-registration (BSE): 3, 4 May 2023 (all centres)**
- **Add/Drop: 30, 31 May 2023, 1, 2 June 2023**
- **Adding Industrial Training courses only: 28 July 2023 (all RCs/SCs)**
- **Withdrawal dates: 27, 28 July 2023 (all RCs/SCs)**

Re-registration and Add/Drop sessions are to be conducted as in person face-to-face sessions. Counselling will be available face-to-face at CRC and KRC.

Additional important information will be conveyed via the faculty web page and/ or MyOUSL.

Applying for the Final Examination

In order to sit for the Final Examination of courses, students should register online for the Final Examination. Any student, who wishes to change to a different Examination Centre should inform the Examination Division in advance.

Applying for Awards

In order to receive an award (Certificate/Diploma/Higher Diploma/Degree) the student should request through his/her MyOUSL account.

Common Information Related to Revisions of Curricula

This chapter presents common information related to completing award requirements under Interim Curriculum and transferring to Revised Curriculum

The Faculty of Engineering Technology has revised the curricula of all Programmes of Study in order to comply with the Sri Lanka Qualification Framework (SLQF).

Following are the Study Programmes that were revised:

- Bachelor of Technology Honours in Engineering with intermediate qualification of Higher Diploma
- Bachelor of Industrial Studies Honours with intermediate qualification of Higher Diploma
- Bachelor of Software Engineering Honours with intermediate qualification of Higher Diploma

Certificate in Industrial Studies in Apparel Technology was upgraded to Advanced Certificate in Apparel Technology.

The curricula that comply with the SLQF are designated as **Revised Curricula (RC)** and the curricula that were offered in the academic year 2017/18 are called **Interim Curricula (IC)**. The curricula offered before the academic year 2017/18 are identified as **Old Curricula (OC)**.

The Faculty has implemented the Revised Curricula by introducing levels 3 and 4 courses in the academic year 2019/20, and levels 5, 6, and 7 courses in the academic year 2020/21. The awards under the Revised Curricula are given from the academic year 2020/21.

1.1 Completing the award requirements under Interim Curricula and transferring to the Revised Curricula

The students, who consider completing the award requirements under IC, need to make note of the following.

1. The last academic year for students to receive the awards under IC is 2022/23. The students who cannot complete the awards at the end of 2022/23, are required to transfer to the RC in the academic year 2023/24.

2. Since no courses or training modules of IC are offered in the academic year 2022/23, any student who is required to do such courses/modules could register and complete the equivalent courses of the RC. Such completed
3. courses are converted back to the corresponding IC courses/modules. The respective courses completed under the IC are considered alternative course/s to courses (at levels 3 and 4) of the RC up to the academic year 2024/2025. However, (MHZ3531 and MHZ3332), DMK3270 and DMX3511 are converted to relevant courses of the RC.
4. Levels 5 and 6 courses of IC completed by the students are converted to the equivalent course/s of the RC after the academic year 2022/2023.

1.2 Proposed additional concessions for the academic year 2022/23

1. Students who are able to complete the degree in the academic year 2022/23, will be allowed to enrol up to a maximum of seven additional course credits, with the approval of the Academic Counsellor(s) and the Head of Department of the relevant specialisation.
2. Student requests to offer a maximum of two courses bypassing prerequisite requirements needs the recommendation of the relevant Head of the Department offering the requested course. This concession is subject to a maximum of forty-five course credits.
3. The final-year project courses in the Revised Curriculum (RC) are to be offered to students who wish to complete their degrees during 2022/23, under the Interim Curriculum (IC), without having to complete all pre-requisite requirements, as stated in the relevant regulations. This concession is subject to a maximum of forty-five (45) course credits.
4. Students who wish to complete the degree under the IC and are required to pass DMM5836 - Management for Engineers

course, are to be offered all three equivalent courses of the RC, concurrently.

To seek the above four concessions, duly completed and authenticated concession request forms are to be handed over to the registration desk at the counselling centre and conveyed to the respective Heads of the Departments. This authentication should be given after a counselling session. These requests are to be reviewed carefully in a sensible and logical manner and accommodated on an individual basis. The relaxation of the prerequisite will be done after consultation with the academic coordinator(s) of the course. These request documents are to be forwarded to the AD/ CRC with the certified decision by the relevant Head of the Department for the offering of approved additional courses using the override facility.

5. A student who has sat for final examination(s) of IC courses, at the end of the academic year 2021/22 and is able to complete the degree in IC, is allowed an additional attempt to sit the final examination of the same IC courses at the end of the academic year 2022/23.

Note: Only students who have passed the final year project and the industrial training modules qualify for this concession. This additional attempt is not granted for the RC courses.

Concession no 5. is granted during the academic year 2022/23 only. Only those students who apply will be considered for this concession.

If the student has already registered for the mapping course(s) under RC, he/she must choose between the mapping IC and the RC course(s) to sit the final examination. (It should be noted that the final examinations of such mapped courses will be scheduled during the same timeslots). When a student passes a course under this concession, he/she is entitled to a C grade only.

The Assistant Registrar of the Faculty of Engineering Technology will inform all students via the faculty website and MyOUSL, requesting students qualifying for the above concession to apply during the stipulated period. The student shall make a request to the AR/FET, via a Google Form, stating the relevant course he/she wishes to consider under this concession and the preferred centre.

- ❖ All students coming for re-registration may seek in-person or online counselling. Academic counselling is highly recommended for those students who seek to complete the Bachelor of Technology Honours in Engineering, Bachelor of Industrial Studies Honours and Bachelor of Software Engineering degrees during the academic year 2022/23.
- ❖ The students who aspire to obtain awards under Revised Curricula are requested to refer the **Student Guidebook 2022/2023**, which is available in the Faculty website. In some cases, the students may not fully fulfil the compulsory courses of the RC, despite the courses of the IC are converted or being considered as alternative courses to those of RC. Therefore, it is very important that the students aspiring to receive awards under RC, be familiar with the curriculum of RC including the compulsory courses for the specialisation and the category-wise and level-wise minimum credits requirements.
- ❖ Students cannot claim credits for both Interim Curriculum Course/s and the equivalent Courses of the Revised Curriculum that are considered to be mutually exclusive courses. A list of IC Course/s mapped with RC Course/s in respect of all Study Programmes is given in the Annex.
- ❖ Students who are following StART@OUSL courses (EGAP, EfIL) in academic year 2022/23 without the registration, should register for these during the re-registration, so that their results can be considered.

Study Programme Common Information

2.1 Structure of Curricula

The curricula of all Study Programmes of the Faculty of Engineering Technology ensure that the student receives an academically as well as professionally recognised qualification in a particular field. However, it still allows the student to structure the subject combinations and total duration of study to suit individual needs. To gain a qualification with a particular specialisation, a specific course combination stipulated for that specialisation needs to be fulfilled.

Courses

The fundamental entity in the dissemination process of knowledge is known as a "course". In other words, a course is equivalent to a subject.

Course Categories

Each course is classified into one of the Course Categories denoted by specific letters as given below.

Engineering	X
Engineering projects	Y
Mathematics	Z
Industrial	I
General	J
Computer literacy	K
English	L or E
Management	M

Course Levels

Each course is also assigned a "SLQF Level", between one (1) and seven (7). The Level indicates the relative complexity of the course content. SLQF Levels 1 and 2 comprise the certificate and Advanced Certificate Programmes. SLQF Levels 3 -7 are different stages in undergraduate Study Programmes leading to Diploma, Higher Diploma, Degree and Honours Degree qualifications. The courses of postgraduate Study Programmes are placed at Levels 7 and above.

Credit Rating of a Course

The Credit Rating assigned for a course reflects the amount of time an average student is expected to devote for its study.

Total effective time expected to be spent by an average student for a course with a Credit Rating of one (1) is about 50 notional hours. The credit rating of a course is denoted by the second digit (fifth character) in the Course Code.

Example: The course MHZ3551 has a credit rating of 5, which means the student is expected to spend about

250 notional hours of learning during the academic year.

Course Codes

Each course is assigned with a code consisting of letters and numbers. The course code denotes the Department that offer the course, Course Category, SLQF Level, Credit Rating and the serial number of the course assigned by the Department.

The codes allocated for the Departments of the Faculty are as follows:

Department/Faculty	Code
Agricultural and Plantation Engineering	AG
Civil Engineering	CV
Electrical and Computer Engineering	EE
Mathematics and Philosophy of Engineering	MH
Mechanical Engineering	DM
Textile and Apparel Technology	TA
Faculty of Engineering Technology	FD

2.2 Study Programmes

A Study Programme is made up of a combination of different courses. For the award of a qualification such as Advanced Certificate, Higher Diploma or Honours Degree, three major considerations need to be fulfilled by the student:

1. A total stipulated number of Course Credits required for an award while fulfilling the minimum requirements at different Levels.
2. Minimum and maximum stipulated number of Credits under each Course Category at identified Levels.
3. The compulsory courses and relevant industrial training required for an award in that field of study.

2.3 Assessment

The Overall Assessment Mark (Z %) of a student in respect of any course is based on the Overall Continuous Assessment Mark (X %) and the mark obtained at the Final Examination (Y %) and is computed as follows. In order to sit for the Final Examination, X should be greater than or equal to 40%.

$$Z = 0.5X + 0.5Y, \text{ if } Y \geq 40$$
$$Z = Y, \text{ if } Y < 40$$

Each student who completes the Overall Continuous Assessment Mark requirement can sit for the Final Examination of a course, and will be awarded a grade

and a Grade Point Value, as given in the Table below based on the Overall Assessment Mark (Z%).

Grade	Grade Point Value
A+	4.00
A	4.00
A-	3.70
B+	3.30
B	3.00
B-	2.70
C+	2.30
C	2.00
C-	1.70
D+	1.30
D	1.00
E	0.00

Performance Ranking

The performance of student (normally for degree awards) is ranked based on Grade Point Average (GPA). The method of computing GPA is given under the description of each Study Programme in Section 3.

The students who achieve a Cumulative GPA above a certain value and satisfy other conditions as determined by the faculty are included in the Dean's List in every academic year.

2.4 Fees for Study Programmes

Unlike the other national universities in Sri Lanka, the OUSL does charge fees from its students. This is related to the fact that the OUSL was set up primarily to cater to the needs of employed students. As these students would naturally be earning at least a modest income, it was felt that the decision to levy fees is justified.

However, there is no intention of recovering the full cost of education from the students. As of today, the income from fees meets only a fraction of the total expenditure of the University. The Government, by grants disbursed through the University Grants Commission, meets the major component of the total expenditure. The fees payable by a student includes, registration fee, facilities fee, exemption fee (where applicable), library facility fee, tuition fee, etc.

The fees applicable for the academic year 2022/23 are as follows:

Type of Fee	Certificate, Diploma and Degree Programmes (Rs.)	Postgraduate Programmes (Rs.)
Registration	500	1500
Facilities	2500	2500
Library Facility	100	200
Exemption	300 per credit	
Tuition fee	Depends on the Course Level	

Tuition fee applicable for the academic year 2022/23, the Bachelor of Technology Honours, the Bachelor of Industrial Studies Honours and Advanced Certificate in Apparel Technology programmes are given in the table below.

Course SLQF Level	Tuition fee per credit (Rs.)	Training courses (Rs.)
2	1210	-
3 and 4	1720	3300
5, 6 and 7	2670	5500

Tuition fee for the Bachelor of Software Engineering Honours programme is Rs.3630 per credit.

The students registering for the courses TAI3270 Fashion Illustration I and TAI4373 Fashion Illustration II conducted by the Department of Textile and Apparel Technology are required to pay an additional sum of Rs. 1725 per course

The students registering for the course CVX5440 Surveying II conducted by the Department of Civil Engineering are required to pay an additional sum of Rs. 10500 for participation at the residential survey camp.

These rates are liable to be revised for subsequent academic years.

When you come for the registration, you need to bring the university copy of payment receipt for voucher. The course material for the first dispatch (first part of the course material) will be issued at the registration.

The second instalment voucher (amount of which will be based on your course credits) will be sent in due course. When you come to collect the course material for the second dispatch you have to produce the payment receipt for the second voucher.

**Bachelor of Technology Honours in Engineering
Degree Study Programme**

3.1 Bachelor of Technology Honours in Engineering Degree Study Programme

The Bachelor of Technology Honours in Engineering degree is designed carefully according to the requirements of the Sri Lanka Qualification Framework (SLQF), specifying minimum and maximum limits for each category of courses, to ensure that the Programme is balanced, and that it meets the academic requirements of major Engineering Institutions, both in Sri Lanka and international (e.g., The Institution of Engineers, Sri Lanka).

The faculty expects a student who is awarded the Bachelor of Technology Honours in Engineering degree to be able to:

1. Exhibit creative and analytical ability and innovative thinking in engineering,
2. Address social, environmental, and economic issues related to engineering and
3. Access and utilise engineering knowledge to the benefit of the society.

It is also possible for a student to obtain a Higher Diploma in an approved Technology discipline after successful completion of a required combination of courses and credit requirements. The Higher Diploma is one of the main avenues to enter middle-level technical grades within the engineering disciplines.

The faculty expects a student who has been awarded the Higher Diploma in Technology to be:

1. Competent in the application of the well-known principles of engineering technology,
2. Aware of social, environmental, and economic issues related to technology and
3. Self-motivated and capable of furthering career advancement

Areas of Specialisation

Bachelor of Technology Honours in engineering degree is available in the following specialisations.

1. Agricultural Engineering
2. Civil Engineering
3. Computer Engineering
4. Electrical Engineering
5. Electronic and Communication Engineering
6. Mechanical Engineering
7. Mechatronics Engineering
8. Textile and Clothing Engineering

Duration

The minimum duration of the Honours Degree Programme starting from level 3 is 5 academic years and the maximum number of academic years a

student can spend to complete the degree Programme is fifteen (15) years.

Medium of Instruction

The medium of instruction of the Study Programme is English.

Eligibility for Admission to the Programme of Study

A person seeking admission to the Programme leading to the award of the Degree of Bachelor of Technology Honours in Engineering shall be required to have:

1. Obtained passes in the subjects, Combined Mathematics, Physics and Chemistry at the General Certificate of Education (Advanced Level) Examination, Sri Lanka, in one and the same sitting or
2. Obtained the Advanced Certificate in Science with courses in the disciplines of Mathematics, Physics and Chemistry, offered by The Open University of Sri Lanka or
3. Obtained a minimum three (3) credit (C) passes for Mathematics, Physics and Chemistry in Cambridge/ Edexcel Advanced Level Examination within three years or
4. Obtained an equivalent or higher qualification acceptable to the Senate.

Requirements for the Award of the Degree

In order for a student to qualify for the award of the Degree of Bachelor of Technology Honours in Engineering, a student has to meet the following requirements (within a maximum period of 15 academic years).

1. Successful completion of all compulsory courses for the selected engineering specialisation, and
2. Fulfil level-wise and category-wise course credit requirements as given in Table 1(a) for IC and Table 1(b) RC.

Requirements for the Award of the Higher Diploma

A student could obtain Higher Diploma in an approved technology discipline as an intermediate award. In order to qualify for the award of Higher Diploma, a student has to meet the following requirements.

1. Successful completion of all compulsory courses at levels 3 and 4 for the selected engineering specialisation, including the Industrial Training modules and

2. Fulfil level-wise and category-wise minimum course credits as given in Table 2(a) for IC and Table 2(b) for RC.

Criteria of Computing Grade Point Average (GPA)

The GPA is computed by considering the courses at levels 4, 5, 6 and 7 totalling to 70 credits (for IC as per Regulation No: 1.1.3.1(e)) or 90 credits (for RC as per Regulation No: 21. ET. (1)[a]). In selecting the courses for computing the GPA, the following sequence will be followed.

- (1) Compulsory courses at levels 5 and above
- (2) Non-compulsory courses at levels 5, and above
- (3) Compulsory courses at level 4

In a situation, where exact number of credits cannot be obtained, the courses are selected to the

(a)

$$\text{GPA} = \frac{\{\sum (\text{Credit Rating of the Course}) * (\text{GPV})\} + (\text{Part Credit of the Course}) * (\text{GPV})}{70}$$

(b)

$$\text{GPA} = \frac{\{\sum (\text{Credit Rating of the Course}) * (\text{GPV})\} + (\text{Part Credit of the Course}) * (\text{GPV})}{90}$$

Nearest value below that number, and the remainder credit is taken as a Part Credit of the next course.

The Grade Point Average (GPA) is computed using

- (a) For IC or (b) for RC.

Limits for Exemptions

Notwithstanding any exemptions granted for prior qualifications, a student shall acquire, by successful completion in accordance with the Scheme of

Assessment, a minimum number of credits as shown in the Table 3 below for the awards.

Table 3 – Minimum number of credits to be obtained by following courses despite exemptions

Credit Description	Interim Curriculum (IC)	Revised Curriculum (RC)
For Degree		
Level 7 (considering all Categories)	N/A	10

Latest on IESL recognition

The IESL recognition granted for the overall BTech (Eng) programme of the OUSL as well as the overall BSc Eng programmes by Universities of Peradeniya, Moratuwa and Ruhuna without specific effective durations, were lapsed by the IESL with effect from 2019/10/01, after giving prior notice. Hence, the Faculty of Engineering Technology made individual applications for recognition of the BTech (Eng) degree, under seven disciplines before the stipulated deadline. Recognition evaluation has progressed and the following positive responses have been received from the IESL;

- Conditional recognition* granted for all three disciplines of BTech (Eng) programme conducted by the Department of Electrical & Computer Engineering, for the intakes in 2020 and 2021.
- Conditional recognition* granted for the single

discipline of BTech (Eng) programme conducted by the Department of Civil Engineering, for the intakes in 2020 and 2021.

*Conditional recognition stipulates that some conditions for improvement of the degree programme in a particular discipline have to be fulfilled, to be granted with full recognition

All Departments are in the process of securing IESL full recognition and updates of the progress will be conveyed to the students.

Further note that, in order to obtain Associate Membership of the IESL, engineering graduates should have fulfilled the entry qualification of minimum two 'C' passes and one 'S' pass in the Physical Science stream of the G.C.E A/L in the one and the same sitting, for intakes on or after 2018/05/01, as publically notified by the IESL.

Curricula for Different Specialisations

Important Notes

(a) Maximum number of credits per academic year and General pre-requisites

Maximum number of credits a student can register at the Open University of Sri Lanka per academic year is 38.

(b) General (J) and Management (M) category courses

The courses listed under specializations do not include General (J) and Management (M) category courses, and these have to be selected from the Table given below to meet the minimum credit requirements in those course categories.

All the courses of IC have now been discontinued except training modules. Therefore, students need register for the alternative course given in the second column (RC courses).

Course (IC)	Alternative Course (RC)	Prerequisite
LLJ3360 Introduction to laws of Sri Lanka	LLJ3245 Introduction to Laws of Sri Lanka	None
None	MHJ4241 History of Technology	Pass in 20 credits
MHJ5531 The nature of science	MHJ5343 Nature of Science	Pass in 45 credits
MHJ5533 Technology, society and environment	MHJ5342 Technology, Society and Environment	Pass in 45 credits
DMM5836 Management for engineers <i>(Last offered in 2020/21)</i>	AGM4307 Economics and Marketing for Engineers	Pass in 18 credits
	CVM5401 Accounting for Engineers	AGM4307(P)

(c) Non-compulsory (Elective) Courses

The students enrolled until the academic year 2017/18 had the provision to register for courses from the “Complete List of Courses” of the Faculty to fulfil the *slack* of a given specialisation. In the RC, recommended elective courses are provided from which the student has to choose courses for the *slack*.

The students who have already completed courses (CA or P) outside the list of recommended courses can count the credits for such courses despite they receive the awards under IC or RC. Now the students are allowed to register only for the courses selected from the recommended elective courses. However, those courses that have been already completed may be considered towards the credit requirements.

(d) Industrial Training Modules

Industrial training modules under the IC are replaced with equivalent Industrial Training Courses under the RC from the academic year 2019/20. After the academic year 2022/23, all the Industrial Training modules will be converted to equivalent Industrial Training Courses where possible.

(e) Fulfilment of Category Credits and Compulsory Courses under RC

The students who aspire to receive awards under the RC need to register for the following courses, except under the conditions mentioned in the ‘Remarks’ column of the following Table, to fulfil category-wise credit requirements and compulsory course requirements for awards under RC.

Course (RC)	Prerequisites	Remarks
EEX3417 Software Development for Engineers	DMX3511(P) OR AGM3203(CR)	Exemption will be granted for an equivalent course in Interim Curriculum
CVY4185/EEY4181/EEY4182/EEY4183/ DMY4101/DMY4102/TAY4181 Group Project	As decided by the department of study	CVY4185 is compulsory only for the awards of Higher Diploma in Civil Technology
AGM4307 Economics and Marketing for Engineers	Pass in 18 credits in Level 3	if not completed DMM5836

The following pages give the courses for different specialisations for meeting the award requirements under IC with the incorporation of courses of the RC.

Curriculum for Civil Engineering Specialisation

All the courses of the IC have been discontinued. If a student needs a course to fulfil the award requirements under IC, such student is required to register for the alternative course/s of the RC given in the second column.

**Bachelor of Industrial Studies Honours
Degree Study Programme**

3.2 Bachelor of Industrial Studies Honours Study Programme

The Bachelor of Industrial Studies Honours Degree Programme of the OUSL is carefully designed in accordance to the requirements of the Sri Lanka Framework (SLQF) especially for persons presently employed in middle level management /technical grades in various industries.

It is also possible for a student to obtain a Higher Diploma in an approved Industrial Studies discipline after successful completion of a required combination of courses and credit requirements.

Areas of Specialisations

- Agriculture
- Apparel production and management
- Fashion design and product development
- Textile manufacture

Duration

The minimum duration of the Degree Programme starting from level 3 is 4 years and the maximum number of years a student can spend to complete the degree Programme is twelve years.

Medium of Instruction

The medium of instruction is English.

Eligibility for Admission to the Programme of Study

A person seeking admission to the Programme leading to the award of the Degree of Bachelor of Industrial Studies Honours in the specialisations in Apparel Production and Management, or Textile Manufacture or Fashion Design and Product Development shall be required to have,

- Obtained three passes in any stream, at the General Certificate of Education (Advanced Level) Examination, Sri Lanka, in one and the same sitting or,
- Obtained a minimum three credit (C) passes in any three subjects in Cambridge International/Edexcel Advanced Level Examination within three years or,
- Completed the Certificate in Industrial Studies in Apparel technology offered by the Open University of Sri Lanka or,
- Completed the Advanced Certificate in Industrial Studies in Apparel Technology offered by the Open University of Sri Lanka or,
- Obtained the Advanced Certificate in Apparel Technology offered by the Open University of Sri Lanka or
- Completed all courses of any foundation Programme offered by The Open University of Sri Lanka or,
- Obtained the Advanced Certificate in Science with courses from any three disciplines offered by the

Open University of Sri Lanka or,

- Secured an equivalent or higher qualification acceptable to the Senate.

A person seeking admission to the Programme leading to the award of the Degree of Bachelor of Industrial Studies Honours in the specialisation in Agriculture shall be required to have,

- Obtained three passes from Biology, Chemistry, Physics or Agriculture at the General Certificate in Education (Advanced Level) Examination, Sri Lanka in one and same sitting, or
- Obtained a minimum three credit (C) passes for Biology, Physics and Chemistry in Cambridge International/ Edexcel Advanced Level Examination within three years or,
- Obtained the Advanced Certificate in Science with courses in the disciplines of Biology, Physics and Chemistry offered by the Open University of Sri Lanka or,
- Obtained an equivalent or higher qualification acceptable to the Senate.

In order for a student to qualify for the award of the Degree of Bachelor of Industrial Studies Honours, the student has to meet the following requirements.

- Successful completion of all compulsory courses for the selected specialisation
- Fulfil the level-wise and category-wise course credits as given in Table 3(a) or Table 3(b).

Requirements for the Award of the Higher Diploma

In order for a student to qualify for the award of the Higher Diploma in Industrial Studies, he/she has to meet the following requirements within a maximum of 12 academic years.

- (1) Obtain passes for all compulsory courses of levels 3 and 4 for the specialisation, including the Industrial Training and
- (2) Fulfil Level-wise and Category-wise Credit requirements for the Higher Diploma as given Table 4(a) or Table 4(b).

Grade Point Average (GPA)

The GPA is computed by considering the courses at levels 4, 5 and 6 totalling to 60 credits (for IC) or 74 credits (for RC). In selecting the courses for the computation of GPA, the following sequence will be followed.

- (1) Compulsory courses at levels 5 and above
- (2) Non-compulsory courses at levels 5, and above
- (3) Compulsory courses at level 4

The Grade Point Average (GPA) is computed using

- (a) for Interim Curriculum or
- (b) for Revised Curriculum.

The Grade Point Average (GPA) is computed as Follows: (a)

$$(a) \text{ GPA} = \frac{\{\sum (\text{Credit Rating of the Course}) * (\text{GPV}) + (\text{Part Credit of the Course}) * (\text{GPV})\}}{60}$$

60

$$(b) \text{ GPA} = \frac{\{\sum (\text{Credit Rating of the Course}) * (\text{GPV}) + (\text{Part Credit of the Course}) * (\text{GPV})\}}{74}$$

A list of qualifications for which exemptions could be claimed is given in Page 73.

Curricula for Different Specialisations

The following pages give the courses for different specialisations for meeting the award requirements under IC with the incorporation of courses of the RC.

Important Notes

(a) Maximum number of credits per academic year and General pre-requisites

Maximum number of credits a student can register at the Open University of Sri Lanka per academic year 38.

(b) General (J) and Management (M) category courses

The courses listed under specialisations may not include General (J) and Management (M) category courses unless such courses are compulsory. These have to be selected from the Table below to meet the minimum credit requirements in those course categories.

All the courses of IC have now been discontinued. Therefore, the student needs to register for the alternative courses given in the second column of the Table below.

Course (IC)	Alternative Course (RC)	Prerequisite
LLJ3360 Introduction to laws of Sri Lanka	LLJ3245 Introduction to laws of Sri Lanka	None
None	MHJ4241 History of Technology*	Pass in 20 credits
MHJ5531 The nature of science	MHJ5343 Nature of Science	Pass in 45 credits
MHJ5533 Technology, society, and environment	MHJ5342 Technology, Society and Environment	Pass in 45 credits

*New Course

(c) Non-compulsory (Elective) Courses

The students enrolled until the academic year 2017/18 had the provision to register for courses from the “Complete List of Courses” of the Faculty to fulfil the *slack* of a given specialisation. In the RC, recommended elective courses are provided from which the student has to choose courses for the *slack*.

The students who have already completed courses (CA or P) outside the list of recommended courses can count the

credits for such courses despite they receive the awards under IC or RC. Now the students are allowed to register only for the courses selected from the recommended elective courses. However, those courses that have been already completed may be considered towards the credit requirements.

(d) Industrial Training Modules

Industrial training modules under the IC are replaced with equivalent Industrial Training Courses under the RC from the academic year 2019/20. After the academic year 2022/23, all the Industrial Training modules will be converted to equivalent Industrial Training Courses where possible.

(e) Fulfilment of Course Category Credits and Compulsory Courses under RC

The students who aspire to receive awards under the RC need to register for the following courses, except under the conditions mentioned in the remark's column of the following Table, to meet course category credit requirements and compulsory course requirements for awards under RC.

Course (RC)	Prerequisites	Remarks
TAK3237 Introduction to Computer Applications	None	None

Bachelor of Software Engineering Honours Study Programme

3.3 Bachelor of Software Engineering Honours Study Programme

The Bachelor of Software Engineering Honours Degree has been designed carefully according to the requirements of IEEE/ACM guideline and conforms to the requirements of Sri Lanka Qualification Framework (SLQF).

A student could obtain a Higher Diploma in Software Engineering after successful completion of a required combination of courses and credit requirements.

Duration

The minimum duration of the Honours Degree Programme is 4 years and the maximum number of years a student can spend to complete the degree Programme is twelve (12) years.

Medium of Instruction

Medium of instruction of the Study Programme is English.

Eligibility for Admission to the Programme of Study

Please note that these admission requirements are only for the students entering the Study Programme from the academic year 2019/20 onwards.

A person seeking admission to the Programme leading to the award of the Degree of Bachelor of Software Engineering Honours shall be required to possess one of the following qualifications and **pass the selection** test conducted by the Open University of Sri Lanka.

- Obtained three passes in General Certificate of Education (Advanced Level) in any stream, excluding General English and General Information Technology subjects or
- Obtained “C” passes in any 3 subjects in Cambridge/ Edexcel Advanced Level examination or
- Passes in any three foundation subjects of OUSL or
- Any other qualification acceptable to the Senate

(a)

$$\text{GPA} = \frac{\{\sum (\text{Credit Rating of the Course}) * (\text{GPV})\} + (\text{Part Credit of the Course}) * (\text{GPV})}{60}$$

(b)

$$\text{GPA} = \frac{\{\sum (\text{Credit Rating of the Course}) * (\text{GPV})\} + (\text{Part Credit of the Course}) * (\text{GPV})}{70}$$

Requirements for the Award of the Degree

In order for a student to qualify for the award of the Degree of Bachelor of Software Engineering Honours, S/he has to meet the following requirements within a maximum period of 12 academic years.

1. Obtain passes for all compulsory courses, and
2. Fulfil the Level-wise and Category-wise minimum Credits for the Degree as given in Table 5(a) (for the academic year 2021/22) or Table 5(b) (from the academic year 2022/23).

2. Fulfil the Level-wise and Category-wise minimum Credits for the Diploma as given in Table 6(a) (for the academic year 2021/22) or Table 6(b) (from the academic year 2022/23).

Criteria of computing Grade Point Average (GPA)

The GPA shall be computed by considering the courses at levels 4, 5, and 6 totalling to 60 credits (for interim curriculum) or 70 credits (for the revised curriculum). In selecting the courses those credits the following sequence will be followed.

- (1) Compulsory courses at levels 5 and 6
- (2) Non-compulsory courses at levels 5 and 6
- (3) Compulsory courses at level 4

In a situation, where exactly required credits cannot be obtained, the courses are selected to the nearest value below sixty (60) or seventy (70), and the remainder credit is taken as a Part Credit of the next course.

The Grade Point Average (GPA) is computed using (a) or (b)

Curricula for Different Specialisations

The following pages give the courses for Bachelor of Software Engineering Honours Study Programme for meeting the award requirements under IC and RC. Re-registering students, despite the curriculum under which they expect to meet the award requirement will have to refer the curricula presented here.

Important Notes

(a) Maximum number of credits per academic year and General pre-requisites

Maximum number of credits a student can register at the Open University of Sri Lanka per academic year 38.

(b) General (J) and Management (M) category courses

General (J) and Management (M) category course are included in the curriculum as Compulsory or Elective Courses.

(c) Fulfilment of Course Category Credits and Compulsory Courses under RC

The students who aspire to receive awards under the RC need to register for the following courses, except under the conditions mentioned in the **Remarks** column of the following Table, to meet course category credit requirements and compulsory course requirements for awards under RC. IC student may also register for these courses.

Course (Revised Curriculum)	Prerequisites	Remarks
EEI4366 Data Modelling and Database Systems	EEI3266(CA), 15 credits	Exempted for EEI5566(P)

**Advanced Certificate in Apparel Technology Study
Programme**

3.4 Advanced Certificate in Apparel Technology Study Programme

This Programme is designed to provide an opportunity to those engaged in the relevant industry to gain an in-depth knowledge in the subject of specialisation.

Advanced Certificate in Apparel Technology Programme is the equivalence to the specialisation offered under the Advanced Certificate in Industrial Studies. The Programme was revised according to the SLQF requirements and renamed as Advanced Certificate in Apparel Technology.

Eligibility for Admission to the Programme of Study

A person seeking admission to the Programme leading to the award of the Advanced Certificate in Apparel Technology shall be required to have,

- 1) obtained six (06) passes including mathematics and the first language in the General Certificate of Education (Ordinary Level) Examination, Sri Lanka or,
- 2) secured an equivalent or higher qualification acceptable to the Senate

Medium of Instruction

The Programme is offered in both Sinhala and English.

Requirements for the Award of the Advanced Certificate in Apparel Technology

The OUSL awards the Advanced Certificate in Apparel Technology to students who have acquired 30 credits by completing the courses belongs to the interim Curriculum listed below.

Those who possess appropriate qualifications may seek exemptions from relevant courses of the Programme. However, they still require registering and successfully completing courses for minimum of 15 credits for the award of the Advanced Certificate in Apparel Technology.

Curriculum

Course credit requirement, compulsory courses and the course conversions are given in Tables 9(a), 9(b), and 9(c) respectively.

Certificate in Fabric Technology (Part time) from the Textile Training and Services Centre.	TAX2585
Certificate in Garment Production Management (Part time) from Clothing Industry Training Institute.	TAI2886
Certificate in Garment Industry Management from Garment Industry Management Institute	TAI2886
Licentiate ship of Textile Institute (LTI) Examination /Associate ship of Textile Institutes (ATI) Technology Group Examination - Paper 1 in LTI /Paper 1(e) in ATI (Textile Technology)	TAX2585
Licentiate ship of Textile Institute (LTI) Examination - Paper 2 in LTI (Garment Technology)	TAI2886

Annex: Conversion of Courses

The following Tables give the equivalent course/s of the Revised Curriculum to those of the Interim Curriculum. As all the courses of the Interim Curriculum are not available from the academic year 2022/23 onwards, you may register for the equivalent course/s of the Revised Curriculum with the same pre-requisites mentioned in the student **Guidebook 2017/18**, and obtain backward conversions to complete the Higher Diploma and Degree requirements during the academic year 2022/23.

Please note that the following rules apply in the conversions.

Conversion type	Converted Course	
	Grade	Credit
one – one	Acquires the marks of the original course, and grade is determined accordingly.	Credits of the Converted Course/s
One - many	All converted courses are assigned the marks of the original course and grades are determined accordingly.	
Many - one	Credit based weighted average mark is calculated for original courses and allocated to the converted course. The grade is determined accordingly.	
Many - many	Credit based weighted average mark is calculated for original courses and assigned to all converted courses. The grades are determined accordingly.
