Literature Project in Chemistry CYU5310 - 2026/2027

The Department of Chemistry will be offering the above optional course during the academic year 2026/2027. Students who fulfill the **perquisites** and particularly intend to complete B.Sc. degree programme during the academic year 2026/2027 are allowed to offer the above course.

Please note that no one can register for both **literature (CYU5310)** and **research (CYU5611) projects** at once. Registration for the above courses is available only for a **limited number of students**, as personal supervision is involved. Those who like to offer the course (CYU5310) is requested to inform the **senior coordinator** of this programme on or before **20.06.2026** by emailing the completed application form to (nselv@ou.ac.lk). This would give me adequate time to select the students who would be permitted to follow this course.

CYU5310 - Literature Project in Chemistry

The course will comprise of carrying out of a literature project over a minimum period of six months and thereafter the submission of a dissertation and presentation of results at a seminar organized by the Department of Chemistry. The course will comprise the carrying out of a literature survey of a topic approved by the Department of Chemistry. The work will be done under the supervision of a member of the staff. Students offering the course will have the opportunity of learning the techniques of referencing, browsing journals, and conducting literature survey. You will be able to use libraries in other institutions as may be considered necessary.

Final Examination:

There will be no final (written) examination; but your dissertation will be evaluated, and you will also be required to make a presentation and come for a viva. For further details, please contact the **senior coordinator** at the Department of Chemistry.
